DACIA

- Dacia Map Update app makes getting new maps simple
- Check available updates or purchase new map regions
- Upload maps from the app to your car on-the-go
- Receive alerts and offers about the latest map updates

GET IT ON Google Play

NNG

Updating your vehicle's navigation maps has never been easier!

NNG, an international company developing the next generation of navigation and infotainment systems for major global automotive companies, teamed up with Dacia to offer drivers the possibility of updating their maps directly via their smartphone.

They can therefore update the content of their in-car navigation system with an easy-to-use application.

The Dacia Map Update application allows customers to select, download and purchase the latest regional content directly on their mobile devices.

Simply connect the smartphone to the vehicle using the USB cable, open the application and download the selected maps directly Dacia Media Nav.

Map updates now take just 15 minutes, saving time for Dacia customers. The first 6 updates (2/year for 3 years) are free of charge. At the end of the 3-year period, drivers can purchase the maps they specifically want to update in their vehicle.

The Dacia Map Update smartphone application is now available for Android-based devices in the Google Play Store and will shortly be available for OS-based devices. The application is already compatible with Dacia vehicles running on the same operating system.

ABOUT DACIA

Born in 1968 then launched throughout Europe and the Mediterranean region in 2004, Dacia has always offered cars with the best value for money, while constantly redefining that which is essential. A disruptive brand, Dacia designs vehicles that are simple, versatile, reliable, and that suit the lifestyles of its customers. Dacia models have become market benchmarks: Logan, a new car at second-hand prices; Sandero, the best-selling private car in Europe every year since 2017; Duster, the most sold SUV to retail customers in Europe since 2018; Spring, European champion of affordable electric mobility; Jogger, the versatile C-segment family car. Present in 44 countries, Dacia has sold more than 8 million vehicles since 2004.
